To: All Parents (Class 1 to Class 3)
From: The Principal
Subject: Focused Group Discussion

Date: 25.02.2020

Dear Parents,

Greetings of the day!

This circular is to inform you of an improvement initiative which we are bringing in focus at RBS.

The socio-emotional well being of our students is of crucial importance to us. We recognize its impact on students' academic achievement as well as their overall development. Therefore, this year we are bringing a special focus on improving the socio-emotional culture and climate at the school. A core team has been formed at the school from the academic staff who is working on this project.

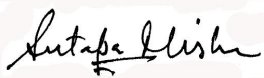

In this context, we have started with a 'needs-analysis project' where we are identifying the feelings and needs of all stakeholders – students, teachers and parents. We have already conducted surveys, interviews and focused group discussions with students and teachers in this regard. We would now also like to involve parents in this process.

We will be shortly sharing a parent survey form to understand the views of the entire parent group. We would also be inviting selected parents for a focused group discussion with the SEL project consultant and the school Counselor.

The parents for the group discussion have been selected keeping in mind diversity of their backgrounds and representing various age groups of students.

We hope that we will get maximum parent co-operation for this project, which will enable us to create a better school environment for the socio-emotional well being of our students.

With regards,

Mrs. Sutapa Mishra
