Subject: Registration for Founder's New Parent Academic Orientation

Dear Parents,

Thank you to those who participated in the survey regarding the Founder's 'New Parent Academic Orientation.' Based on the majority parent response on the survey, we have planned to conduct the session physically on **28th August 2021, Saturday.**

The session will be conducted by our Founder - **Mrs. Renita Handa.** Mrs. Handa has vast experience and professional training in the field of education, and she likes to make her sessions deeply *reflective* and *interactive*. She is currently pursuing her Masters in Education from Harvard University, and is passionate about sharing her research-based and professional knowledge about education with the teacher and parent community.

This session will give parents an opportunity to deeply understand the school's academic philosophy, the context behind its overall academic approach, and also to gain new research-based knowledge related to 'How Children Learn.' Parents will find this information very useful in shaping their own parenting philosophy and approach with their children. We highly recommend atleast one parent to attend this session, as a small step towards building a strong foundation for your child's education and future.

Details of the session:

- **Date:** 28th August, Saturday
- **Time:** 9:45 am to 11:45 am
