In an exceptional & tranquil landscape in the Northern part of Gujarat, awaits a place to be explored – Parvati Hills, only 125km from Ahmedabad. It is located at a height of 200 ft above ground level overlooking 2000 acres of green forests & many villages. Being amidst of nature, Parvati hills experiences pleasant weather throughout the year. Its incomprehensible expanse of flat land, water-bodies, natural flora & fauna makes it ideal for adventure, leisure & anything that compliments its milieu.

The nature study conceived here is not so much about the learning of names and classifications but giving an inexplicable experience that would become a continuous process of learning. The programme also aims to develop the ability to weave a story from a drop of water, to sense an adventure from the silver ribbon left behind by a passing snail, to wonder and watch with admiration the gliding and turning of the gull in flight, and to interpret the coming storm by the shape and movement of the clouds.
