Subject: Green Schools Book Procurement

Date- 20/07/18

Dear Parents,

As you are aware, the students of the EC 'Climate Change' cluster have started off with a preliminary introduction on how climate is impacted due to human action. To build on their research skills, ability to compile data and visualise the impact that the school has on the environment, we have enrolled for the Green Schools Programme.

The Green Schools Programme is an environmental education programme directed to subtly sensitizing students to the environment through hands-on and thought provoking activities. It is also an environment management system that audits, through students, the consumption of natural resources within school campus and helps schools become good environmental managers by deploying pragmatic solutions to reduce wastage of precious resources.

As part of this program, it is required that each student of this cluster has a copy of the 'How green is your school' resource book which has useful information pertaining to the theme and activity sheets for data compilation of the survey conducted on the school premises.

The school can procure the book on behalf of the child for a nominal cost of Rs. 175/- (at actual book cost) which will be deducted from the Imprest amount. Kindly fill in the consent form to facilitate the procurement.
