Subject: Principal's Video Message on Orientation to Remote Learning

Dear Parents,

We are very excited to welcome back our children after the summer break on 22nd June 2020. This year, our welcome back to school will be a virtual welcome but it will have the same passion and warmth for our dear students. Before we start on this exciting journey of a new academic year through the remote learning model, we would like to brief you about how the new remote learning model will work.

The *initial two weeks* will be transition weeks for settling in and to orient our children and parents to the remote learning tools and methods, and we will gradually move to a regular timetable. A lot of thinking and effort of our academic team has gone into developing this new remote learning model. We hope that our children will also enjoy learning through this new process.

We have created the following communication materials for *parent reference*, before the virtual school starts on 22nd June.

- 1. A Video Message from the Principal on Remote Learning**
- 2. Parent Handbook on Remote Learning**

With this circular, we are sharing the Video message from the Principal. You may access it by clicking on the below link-

Kindly go through this video for your understanding.

We will also share with you the Parent Handbook, the Transition week timetable and other details for the transition week shortly. In the coming week, we will also conduct a *live video orientation for all the parents* to ask any queries in relation to the remote learning model.

We look forward to a unique and exciting learning journey ahead.

Best regards,

Sharmistha Chakraborty

Principal
